About Us

Established in 1942, Kaycee Industries Limited is a leading manufacturer of high-quality electrical switching & control solutions. Our diverse product portfolio includes rotary switches, cam switches, limit switches, relays, terminal blocks, auxiliary switches, & customized electromechanical solutions that serve industries across India & global markets.

Driven by engineering excellence, innovation, & uncompromising quality, we deliver reliable products for industrial automation, power, infrastructure, railways, renewable energy, and OEM applications. Backed by advanced manufacturing facilities, stringent quality standards, & a customer-centric approach, Kaycee continues to build lasting partnerships by delivering dependable solutions that meet evolving industry needs.

Kaycee Industries Limited

ISO 9001 : 2015

Deutsch Quality Systems (India) Pvt. Ltd.

IQNET

80+ YEARS EXPERIENCE
A legacy of trust & engineering excellence since 1942

QUALITY ASSURED
ISO certified processes ensuring consistent quality and reliability.

TRUSTED BY LEADING OEMS
Preferred partner for OEMs & industrial customers.

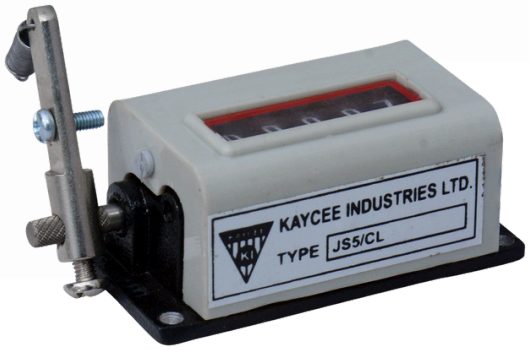

CUSTOM ENGINEERING
Tailor-made solutions built to meet unique customer requirements.

PAN INDIA NETWORK
Strong distribution & service network across India

GLOBAL PRESENCE
Serving customers in international markets with pride.

JUNIOR STROKE COUNTERS

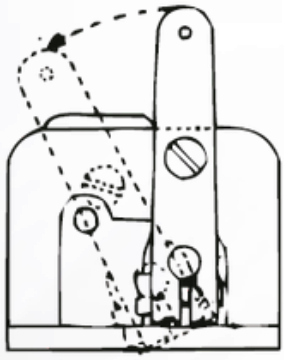

Kaycee Junior Stroke Counter is a small compact counter with five digits to assure accurate reading even in a limited space. Available as Stroke model with knob type reset & non reset to bring all figures back to zero. It is having die cast base and plastic cover for light weight. No maintenance is required since figure wheels and pinions are of special thermo plastic material.

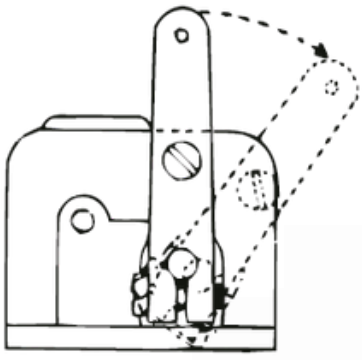

What does your code say JS5LK/DR

1) Type of counter : JS - Junior Stroke
2) No. of figures : 5
3) Reset details : LK-Left hand knob type reset
   RK-Right hand knob type reset
4) Drive Shaft Rotation : D-Top going (Backward Stroke)
   Side of drive: L-Left R - Right While ordering specify 3 & 4
   C- Top coming forward stroke

Direction of drive shaft

Top coming (Forward Stroke)

Top going (Backward Stroke)

SPECIFICATIONS :

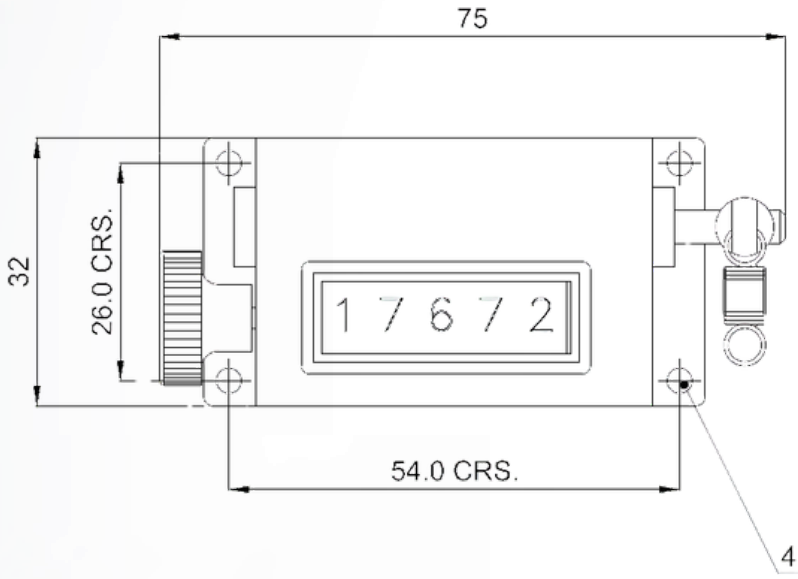

No. of figures with reset : 5
Size of figure : 4mm
Speed : Up to 125 strokes per minute.
Gearing ratio : 1:1 i.e. One count for one stroke.
Overall size : 60 x 33 x 28 mm. Approx.

APPLICATIONS :

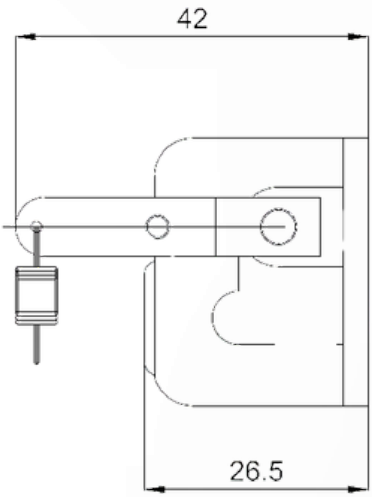

Some of the typical applications include :

1) Office Machines (Duplicating machines)
2) Circuit breakers for counting the numbers of make and break operations
3) Coil Winders
4) Hand Presses

STD. KNOB WITH STD. LEVER

DC-1619

GENERAL TOLERANCES	
Full Figure	+1
upto 1st Decimal	+0.5
upto 2nd Decimal	+0.25

Product Improvement being a continuous process of KAYCEE the product supplied may differ from that illustrated & described in the literature.

REVOLUTIONARY COUNTERS

Kaycee Revolution Counter 1 2 3 4 5

Kaycee Senior Revolution / Stroke Counters have die cast base and plastic cover for light weight, exceptional strength and rigidity. With the use of self-lubricating sintered bearings, stainless steel shafts, special thermo-plastic figure wheels and pinions, longer life, high speed and faster operations are achieved. Special quick-reset brings all figures back to zero with one short, angular movement.
No maintenance is required.

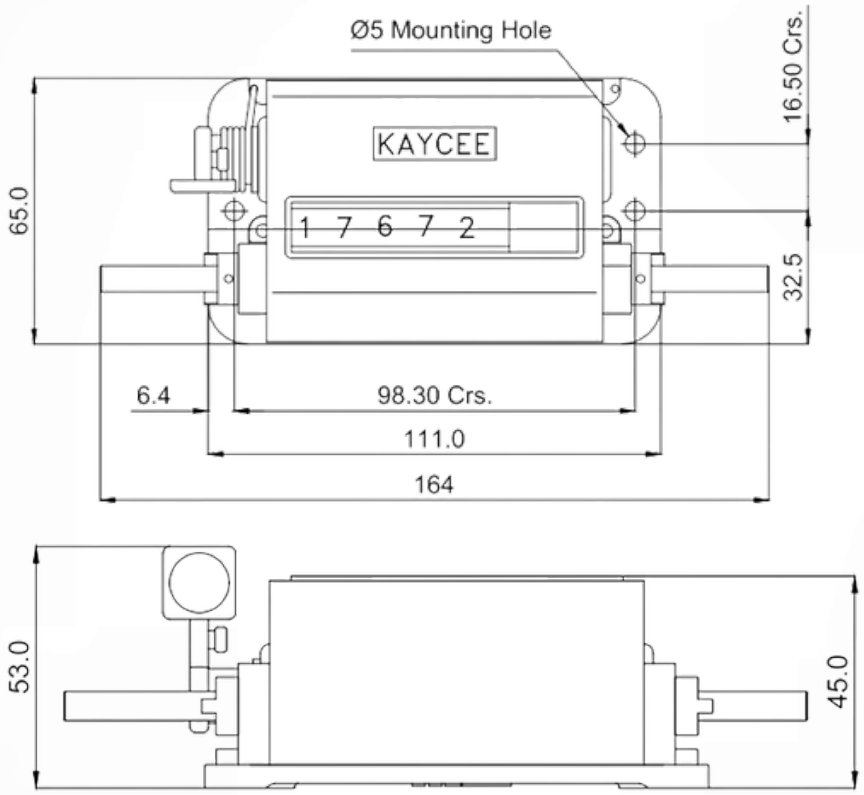

Counter	: SR-Standard
Digits	: 5
Reset	: Quick lever reset
Shaft diameter	: 6.35 mm
Method of counting	: Adding in one direction and subtracting in reverse
Gearing Ratio	: 1:1 standard 1:2, 1:3, 5:1 & 10:1
Ambient Temperature	: 60°C

ALL REVOLUTION COUNTERS CAN BE SUPPLIED IN THESE EXECUTIONS

MEASURING MACHINE MM3

WHAT DOES OUR CODE SAY SR 5 LL/DR

1. Type of Counter	:	S4-Senior Revolution ST-Senior Stroke
2. No. of Figures	:	5
3. Reset Details	:	LL-Lefthand lever type reset RI-Righthand lever type reset
4. Drive Shaft Rotation	:	C-Top coming D-Top going
5. Side of Drive	:	L-Left R-Hight, Both sides

While ordering specify 2, 3, 4 and 5

Product Improvement being a continuous process of KAYCEE the product supplied may differ from that illustrated & described in the literature.

MEASURING MACHINES

Used for accurate measurement of Fabrics, paper and plastics directly in metric units. The counter is an adaption of the popular Senior Quick Reset Counter Type 'SR' as per specification as under. If used in conjunction with correct attachments little or no maintenance is required.

OPTIONAL EXTRAS

KA-Knurling Aluminum Wheels
Hard rubber covered measuring wheels.
Senior Counter MK 11 for better readability.

SPECIFICATIONS

Counter : TYPE 'SR' Standard

Digits : 5

Resets : Quick lever reset

Shaft diameter : 6.35 mm

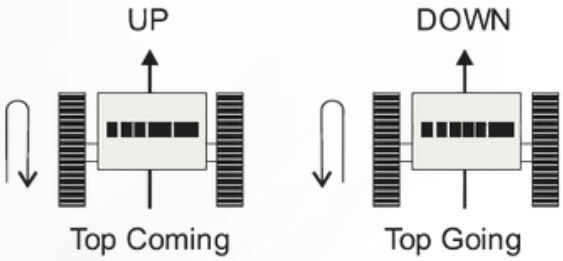

Method of Counting : Adding in one direction and subtracting in reverse

Gearing ratio : 1:2 ie. 2 turns to indicate 1 meter on the counter (with 1/2 meter circumference wheels)

Ambient temperature : 60^0 C

Calibrated at North Lab India Pvt. Ltd.

While ordering please mention the type number and direction of rotation,

Product Improvement being a continuous process at KAYCEE, the product supplied may differ from that illustrated & described in the literature.

Code for wheels of Measuring Machines should be specified as per below :

KAW Knurled Aluminium wheal
RAW Rubber covered Alluminium wheel

TYPE MM3

Measures the length directly in meters with two knurled /rubber Wheels 1/3 meter circumference. The counter is fitted on a hinge for iting over when not in use.

TYPE MM4

Measures the length in melers having a gear ratio 1:2. Also measures in meters and lengths having a gear ratio 5:1 with one knurled/rubber wheel-34 meter circumference. The counter is fitted on L bracket with a hinge for tilling over when not in use

TYPE MM5

Measures the length in meters having a gear ratio 1:2. Also measures in meters and lengths having a gear ratio 5:1 with two knurled/rubber wheel 1 meter circumference. The counter is fitted on L bracket with a hinge for titling over. when not in use

TYPE MM7

Measures the length in meters with two knurled/rubber wheels-1/3 meter circumference. The counter is fitted on a bracket. This assembly is mounted, on L bracket with 12.7 mm (%) diameter 50 cm long rod. Stopper is provided to adjust pressure on the wheels.

ROAD MEASURERS

USEFUL FOR :

- Surveyors
- Road Contractors
- Electric Supply Undertakings
- Municipal Engineers
- Police and Army
- Civil Engineers
- Public Works Departments
- Exercise Tool.

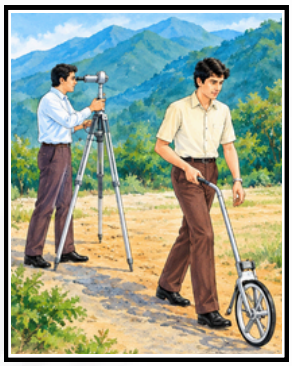

Kaycee Road Measuring Machine Supercedes older design of chain & tape measurement. It is a rapid, convenient & ACCURATE means of making measuring jobs simple & effortless.

Just walk along the path to be measured with the measuring instrument & their you have it-all worked out-the total distance walked by you, direct in meters & decimeters on an easy to read, straightreading dial.

The measuring wheel is divided into ten equal parts and the red arrow on the wheel indicates the starting position, thus ensuring exact measurement.

SPECIFICATIONS

Height of Machine	1 metre approx
Weight of Machine	3kg approx
Weight with carrying case	4kg. Approx.
Case size	60cm x 16cm x 33cm (approx.)

MEASURING WHEEL

Machined to exact diameter and lined with synthetic oil resistant hard rubber.

COUNTER

Quick lever resetting type. The figures are clearly visible throughout the operation

CALIBRATION

Metres and Decimetres. Any other ratio to order.

CARRYING CASE

For easy handling, an elegant water-proof case is supplied free of charge with every machine.

STAND

Can be supplied with stand.

Product Improvement being a continuous process of KAYCEE the product supplied may differ from that illustrated & described in the literature.
